

HUERTA PUNISHES AMERICAN AGENT

Dictator Angered Because Consul Carothers Sent Word to Washington That Torreon Had Fallen, Cancels His "Exequatur."

MOVE HAS BUT LITTLE EFFECT

Federals Still Claiming Torreon Has Not Surrendered to Villa—John Lind and Family of Admiral Fletcher Embark for Home.

By Associated Press.
Washington, D. C., April 6.—The cancellation of the Huerta Government of the exequatur of American Consular Agent George C. Carothers, because he sent to Washington dispatches saying the Rebels had taken Torreon from the Huerta forces, failed to disturb State Department officials today. The Huerta Government still denies Torreon has fallen.

Mr. Carothers obtained his exequatur when he was accredited to the Madero Government and stationed at Torreon. Since the outbreak of the Carranza revolution he has had a roving commission in Northern Mexico, and his exequatur from the Mexico City Government has been of little value to him, all his dealings being with the Constitutionalists. It is the intention of the American Government to keep Carothers with General Villa and the Constitutionalists leader to make prompt representation for the safety of Americans and other foreigners and to look after their interests generally.

Vera Cruz, April 6.—John Lind, personal representative of President Wilson, with his daughter and the family of Rear Admiral Frank F. Fletcher, embarked on the Mayflower today to proceed direct to Washington. William C. Canady, American Consul here, and the consular staff went on board to bid them farewell.

THREATEN MRS. DOHL

By Associated Press.

Price, the Methodist clergyman, who was charged with misconduct by nine women members of his congregation. Mrs. Dohl said on the stand that Dr. Price had made improper proposals to her and "treated her as no other man had ever treated her before." "Your accusations against Dr. Price," read the postcard, "are all false. I suppose you are another suffragette clamoring for newspaper notoriety. Better let this matter drop."

Washington, D. C., April 6.—John D. Mr. Rockefeller contended that responsibility for the conduct of corporations lay not only with stockholders or directors, but with the officers of the company. Was Charged With Bringing Canadian Woman to This Country For Immoral Purposes and Court Holds That His Return Was an "Entry."

By Associated Press.
Washington, D. C., April 6.—Half an hour spent in Canada will cost Samuel Lewis, a Russian, his lifetime in the United States. The Supreme Court so held today in a decision which may effect many immigration cases. Lewis came to the United States in 1904 and after living in New York went to Detroit. On November 17, 1910, he crossed to Windsor, Canada, returning with a woman whom, it was charged, he brought for immoral purposes. He contended his return to the United States was not an "entry" within the meaning of the law. The Supreme court held it was and he will be deported.

The President's Position

It is not remarkable after all that quite a number of people are still a little confused on the position of President Wilson with reference to the matter of Panama canal tolls.

It is simply this in a nut shell:

American ship owners engaged in what is called coast-wise trade are insisting that as the United States government built and owns the Panama canal that American owned vessels should be permitted to pass through the canal free of toll—without paying any money for the privilege of using the canal. To pass through the canal instead of sailing clear around Cape Horn will be an enormous saving in time and actual money to the owners of those ships.

American ship owners have practically abandoned commerce on the high seas and confine their operations to the coast-wise trade which means simply that their ships are only navigated between points on the coast line of this country.

The opening of the Panama canal extends the available coastline to these American vessel owners until it includes both the east and west coast lines.

A great many of the steamship companies engaged in the coast-wise trade, perhaps the larger part of them, are controlled by the large trans-continental railway companies and to allow the vessels of such companies to use the canal toll free would confer upon such companies and the companies controlling them an enormous benefit.

The position of President Wilson is that these American steamship companies engaged in the coast-wise trade, should pay toll for the use of the canal just the same as vessel owners of any other nation.

The President characterizes a law which would permit such companies to use the canal free of toll charges as nothing more nor less than special privilege in a new form.

The people of the United States paid millions to build the canal with the idea of benefitting commerce and of charging toll fees for the use of the canal, to reimburse the treasury of the United States for the millions of dollars of the people's money which were spent in its construction.

American shippers who use the coast-wise vessels must pay the ship owners a rate which would not be reduced by the saving in time and money which the building of the canal brought about and to allow such companies to use the canal toll free would be to add great sums to the revenues of the steamship companies at the expense of the people.

The leaders in Congress who have opposed President Wilson in his stand believe that American ship owners should not be required to pay toll for using the canal and President Wilson believes that they should.

The lower house of Congress by a majority of eighty-six, on the recommendation of President Wilson decreed that American ship owners should pay toll for the use of the canal.

The issue is simple and easily understood when the facts are known.

It is only the old, old proposition of taxing the many for the benefit of the few. The president does not believe in it and the majority of the lower house of Congress coincides with the President's views.

The battle is now passed on to the Senate.

Too Much Production of Verse With Too Little Appreciation of It

By ALFRED NOYES, English Poet

Photo by American Press Association.

POETRY is steadily gaining in popularity. Recently I met a man who is tremendously interested in verse. He is a manufacturer, and last year when he was in England he made a SPECIAL TRIP TO THE HOME OF A GREAT CRITIC MERELY TO TALK TO HIM ABOUT POETRY. And the critic said to him, "You are the third American manufacturer who has come to talk poetry with me this week, and I don't see the connection." Well, we are very soon about to see that connection.

THE STUDENT SHOULD WRITE VERSE IF HE REALLY HAS THE POETIC INCLINATION. OTHERWISE IT IS SIMPLY A WASTE OF TIME. THERE IS TOO MUCH PRODUCTION OF VERSE AND TOO LITTLE APPRECIATION OF IT. WE ARE CONTENT TO ADMIRE SCULPTURE WITHOUT ATTEMPTING TO CREATE IT. WE SHOULD REGARD POETRY IN THE SAME WAY. WE SHOULD STOP THE GREAT WASTE OF ENERGY WHICH COMES FROM VAIN EFFORTS TO WRITE VERSE ON THE PART OF PEOPLE WHO HAVE NO REAL REASON TO MAKE THE ATTEMPT.

Poetry For Today

ONCE UPON A TIME.

The cost of living was quite low,
Once upon a time.
We used to save a little dough,
Once upon a time.
We can recall it didn't take
A dollar bill to buy a steak;
We didn't spend all we could make,
Once upon a time.

The women all dressed sensibly,
Once upon a time.
They were as modest as could be,
Once upon a time.
They didn't wear the low-necked gown
When walking on the street down town,
And skirts so tight they couldn't sit down,
Once upon a time.

The people danced with ease and grace,
Once upon a time.
They didn't scramble round the place
Once upon a time.
They danced in manner meant to please,
Not on their elbows and their knees;
They turned no handsprings in the breeze,
Once upon a time.

Hysteria was not a fad,
Once upon a time.
The folks were not sensation mad,
Once upon a time.
They were quite strong on safty,
And it is very plain to see
Things are not what they used to be,
Once upon a time.

PLUNGES IN RIVER

Three Persons Are Killed and Many Injured in Indiana.

TRAINMEN LOSE THEIR LIVES

Locomotive, Baggage Car and Day Coach Drop Into the Water, Occupants of the Latter Escaping With Injuries—Structure Weakened Several Hours Previously by the Wreck of a Freight Train—The Victims.

Attica, Ind., April 6.—Three persons were killed and about 35 others injured, some seriously, when Wabash passenger train No. 4, known as the Continental Limited, was wrecked when the bridge over the Wabash river, just west of here, gave way. The engine, a baggage car and the day coach dropped into the water.

When the cars left the bridge the day coach, which was crowded, fell with the rear end out of the water, and though the majority of the injured were in this car, none of them was killed. The car hardly had settled in the water before the work of rescuing the passengers was commenced, and in a few minutes all had been taken out. They were taken to a hospital at Lafayette on a special train.

The dead: J. L. Miller, Peru, Ind., fireman; Timothy Howe, Peru, Ind., engineer; Harry Thomas, Huntington, Ind., baggage man.

The railroad's bridge over the Wabash river was weakened when a freight train was wrecked upon the structure, and the Continental Limited was stopped on the west side when it reached the place. A switch engine was sent across the bridge to determine whether the structure would hold the fast passenger train. Railroad officials believed it safe and the limited was ordered to proceed.

The train crept out on the bridge slowly, and when about 100 feet out upon the structure the bridge gave way beneath the weight of the train. The engineer was caught under his engine and crushed to death. The fireman, who jumped, was scalded to death, and when the front end of the baggage car was toppled downward Thomas was crushed beneath an avalanche of trunks.

CHARLES SAMSON ALLOWED RELIEF

Charles Sampson, of Good Hope, the blind man who has been arrested a number of times for bootlegging, but who, it is claimed, has completely reformed, has been allowed a pension of \$150 per year, to be paid quarterly.

Sampson formerly drew a similar pension, but owing to his frequent violations of the law, the pension was cancelled until such a time when he ceased to sell liquor. No complaint has been made against the man for many months.

Here Is Good News for Stomach Victims

Some very remarkable results are being obtained by treating stomach, liver and intestinal troubles with pure vegetable oils, which exert a cleansing, soothing and purifying action upon the lower bowels, removing the obstructions of poisonous fecal matter and gases and preventing their absorption by the blood. This done, the food is allowed free passage from the stomach, fermentation ceases and stomach troubles quickly disappear.

George H. Mayr, for twenty years a leading Chicago druggist, cured himself and many of his friends of stomach, liver and intestinal troubles of years' standing by this treatment, and so successful was the remedy he devised that it has since been placed in the hands of druggists all over the country, who have sold thousands of bottles.

Though absolutely harmless, the effect of the medicine is sufficient to convince any one of its remarkable effectiveness, and within 24 hours the sufferer feels like a new person. Mayr's Wonderful Stomach Remedy is now sold here by Blackmer & Tanquary. Adv.

PERFECT ENGLISH.

Readers of newspapers are fond of finding fault with newspaper English. Scarcely a day passes without a communication calling attention to the misuse of one word, maybe three or four. The complaints are not justified. There is no established standard.

President Charles Elliot Norton, emeritus of Harvard, submitted inscriptions for the new Postoffice building at Washington. President Wilson used the blue pencil. The doctor disagreed.

Dr. Norton suggested the following to be placed over one porch or entrance:

"Carrier of news and knowledge. Instrument of trade and commerce. Promoter of mutual acquaintance among men and nations, and hence of peace and good-will."

Dr. Wilson, also President, will have it thus:

"Carrier of news and knowledge. Instrument of trade and industry. Promoter of mutual acquaintance of peace and good-will among men and nations."

Other changes were suggested by President Wilson. The lesson is plain. There is a satisfaction to be found by newspaper workers, who are under full steam all the time.

The men named are great masters of English. One had months to formulate the inscriptions to be read by posterity when the buildings in Washington will look like those on the hills about Athens. The reviewer of words had an abundance of time to look over the proof submitted. He used his blue pencil.

It may be he improved the sentences, but evidence will be offered by other professors in English to show the weakness of the changes made.

It is up to newspaper men to smile with satisfaction. Eminent men differ. Why should men who work by the minute mourn when those who work for days and even months differ over the construction of two or three inscriptions, not impressive, at that?—Commercial Tribune.

OFFICERS OF THE FOURTH MAP OUT LINE OF MARCH

Four Days' March Between This City and Chillicothe Next September Will be Accompanied by Continuous "Fighting" in Which 700 to 800 Men Will Take Part—All Supplies to be Furnished in This City.

Col. Byron L. Bargar, of the Fourth regiment, Ohio National Guards, accompanied by Capt. P. E. Money-penny, Quartermaster Sergeant Robert E. Sheldon and H. C. Groves, spent Saturday night in this city and left early Sunday morning to map out the route for the Fourth when it marches from this city to Chillicothe next September.

While in this city the party spent the night at the Cherry hotel, and discussed plans for the maneuvers in September. They made the trip Sunday by automobile, covering the ground thoroughly and picking out camp sites along the route between this city and Chillicothe.

The Fourth regiment, consisting of companies A, of Greenfield; B and C, of Columbus; D, Marion; E, Marysville; F, Circleville; G, Chillicothe; H, Newark; I, Columbus; K, Delaware; L, Lancaster and M of this city, will assemble in this city during the forenoon of September 7th, and

will then march toward Chillicothe, probably camping near Good Hope the first night.

It will require four days to make the trip, as the men will have their heavy trappings to carry, and much of the time will be taken up in maneuvers, which will terminate in a battle royal when one battalion will encamp at Chillicothe and endeavor to repulse an attack made by the remainder of the regiment.

Several hundred rounds of blank cartridges will be carried by the men, and the skirmishes will take place all along the line of march, so that persons living along the line of march need not be surprised if a company of armed men suddenly appear near their homes and begin shooting at another party approaching from the opposite direction.

All provisions for the march will be obtained in this city, and some 700 to 800 men will be fed for some four days. 17 wagons and teams will be hired here, and about 35 saddle horses will also be provided from this city. All ice, meats, bread and everything forming the bill of fare for the men will be obtained here until they pitch camp in Chillicothe.

The march and maneuvers will occupy a period of eight days, and present plans will be carried out unless the men are—in Mexico.

GETTING READY FOR THE PROWLER

Many citizens are much alarmed over the frequent visits of the unknown prowler or prowlers who have been visiting homes in various parts of the city at late hours in the night, and ransacking the premises unless frightened away before they had time to complete their work.

So far the fellow has eluded the police, and has left little or no clew behind him.

During the past few nights several houses have been entered, and where the fellow has not been discovered, the premises have been thoroughly searched for valuables.

Quite a number of revolvers have been purchased by citizens who are expecting the nocturnal visitor to show up about their homes.

Threats to shoot the prowler on sight have been freely made, and pistols have been placed in readiness for his reception.

\$888,360 GAIN IN 1774 RETURNS

In a report made to the State Tax Commission Saturday night, District Assessor J. C. Dunn reported a gain of \$888,368 on 1774 returns made to date.

The assessors have completed three townships and the work is nearing completion in several other townships.

In all there are 4500 to 5000 returns to be made in Fayette county, and when the assessors complete their work a gain of more than \$1,000,000 over last year will probably result.

Adjoining counties are reporting large increases over the returns of last year.

WHY 7000 DRUGGISTS.

Guarantee and Recommend Vinol. If any one should know the value of a medicine it is the retail druggist who sells it.

Therefore, when over seven thousand of the best retail druggists in the country recommend Vinol, our delicious cod liver and iron tonic, without oil, as the greatest tonic re-constructer and strength creator they have ever sold, it must indicate the value of Vinol.

We could publish columns of such testimony as the following:

J. C. Brady, druggist of Fall River Mass., says: "In cases where cod liver oil, emulsions and other tonics fail, Vinol will heal, strengthen and cure."

C. A. Potterfield, druggist, of Charleston, W. Va., says: "It is a pleasure to sell Vinol as it gives such universal satisfaction."

Hunter & McGee, druggists, of Jackson, Miss., say: "We have great confidence in the strength creating and curative value of Vinol."

We ask ever run-down, nervous, debilitated, aged or weak person or any person suffering from chronic coughs, colds or bronchitis, to try a bottle of Vinol with the understanding that their money will be returned if it does not do all we claim. FARMER INJURED BY GASOLINE ENGINE

Mr. John York, residing between this city and Good Hope, was very painfully injured early Monday morning while starting a gas engine at his home.

He was cranking the engine when it "back fired" with the result that the crank struck him a heavy blow under one eye, inflicting a gash some two inches in length, and knocking him down.

A physician was summoned and found the injury was not of a serious character, although very painful.

DANIELS' EDICT MEANS DRY NAVY

Prohibits Use of Alcohol on Warships and in the Yards.

EFFECTIVE THE FIRST OF JULY

Decree Abolishes Officers' Wine Mess and Sale of Liquor at Officers' Clubs On Shore—Wives of Officers Also Prohibited From Serving Intoxicants at Social Functions—A Sweeping Proclamation.

Washington, April 6.—A dry navy is now to take its place as the right arm of grape juice diplomacy in the scheme of the Wilson administration. Secretary of the Navy Daniels has signed an order which absolutely prohibits the use or introduction of alcoholic liquor upon any vessel of the navy or within the confines of any navy yard.

This order was issued today to the service and will become effective on July 1, 1914.

Besides abolishing what is known as the officers' wine mess on board ship and the sale of liquor at the officers' clubs on shore, Mr. Daniels' order is so sweeping as practically to enforce total abstinence upon naval officers for extended periods.

It will henceforth be a violation of the order for any officer or guest upon any naval vessel to have in his possession any alcoholic beverage. Officers living on shore will be prohibited from having any liquor in their private homes if their duties require their residence on naval reservations. Wives of officers so situated will be prohibited from serving punches or any other form of liquor at their social functions.

Commanding officers by the terms of the order are made personally responsible for its enforcement, and it is Secretary Daniels' determination that it shall be rigidly observed.

There was much speculation here as to whether or not President Wilson had been consulted in regard to

the order. It is known that it was not discussed before the cabinet, but Secretary Daniels' friends declare that he hardly would have taken this important action without first ascertaining the president's views.

In no other navy in the world, so far as is known to naval officers here, is there any such rule or regulation as that just issued by Secretary Daniels. In most navies the custom is practically that of the United States navy at present time. There is an officers' wine mess on each vessel, out of which officers purchase liquors in such quantities and at such time as they see fit without any restrictions, except those required by performance of official duties.

While Secretary Bryan with his grape juice episode and Secretary Daniels with his present order have taken very decided stands on the temperance question, there has apparently been no intention of the president to prevent his guests at state occasions at the White House from exercising their own judgment as to whether or not they will take anything stronger than water.

GUN DISCHARGED KILLING BARON

London, April 6.—Sir John Shiffner, fifth baronet, who succeeded his father in 1906, was accidentally killed by the discharge of a gun at his home in Sussex. Sir John, who was married in 1894 to Miss Eliza Burrows, daughter of Odgen Hoffman Burrows of Newport, R. I., was cleaning a gun which he wished to have ready for his sons, who were expected home from school in a few days for the Easter vacation, when the weapon was discharged and he was instantly killed.

ARMY OF CHICAGO WOMEN TO VOTE

Chicago, April 6.—The political campaign has closed, and Chicago women are prepared, for the first time, to exercise their right of franchise at the election here tomorrow. There are 217,614 women eligible to cast their votes, and election authorities expect that at least 175,000 of these will go to the polls and aid in the selection of 36 aldermen and express themselves on the 12 questions of municipal policy submitted.

Although there are eight women candidates among the 154 seeking places in the city council, most of the women's clubs and civic organizations have centered their campaign efforts in the First ward, where Miss Marion Drake, a law stenographer and a Progressive, has set out to displace Bathhouse John Coughlin, who with Michael Kenna, has represented the ward for 20 years.

PICKETS ENJOINED

Portsmouth, O., April 6.—The temporary order asked by the Selby Shoe company to prevent striking employees and others congregating near the company's plant was granted by Judge Peoples. The court included the union pickets, holding that while their rights never have been passed upon by a court of last resort in Ohio, courts in other states have held that picket lines are never peaceable, and their use is an unlawful form of coercion.

HOPE BEING ABANDONED

No Tidings of "Southern Cross," Carrying 170 Men.

St. Johns, N. F., April 6.—Anxiety deepened for the 173 men on the sealing steamer Southern Cross, which has been missing since Tuesday's blizzard. She was not reported either by incoming vessels of the sealing fleet or by the steamer Kyle, sent out by the government to search for her. If she is not heard from by sunset tonight she will be officially posted as lost with all on board.

Disaster to her, following so closely upon the loss of 77 men of the sealer Newfoundland, would bring upon the colony the greatest tragedy in its history, depriving whole settlements of their breadwinners and rendering 1,000 women and children dependent upon charity.

As the public learned from the Newfoundland survivors the details of the two days' blizzard and the condition in which it caught the Southern Cross, the first hopes, based on the stoutness of the ship, faded. Captain Daniel Martin of the sealer Erik and Captain William Bartlett of the Terranova, which arrived with full catches, were dubious regarding the safety of the missing ship. Neither had seen her within a week.

Captain Martin said he parted company from her a week ago, Thursday, when the Southern Cross turned homeward with 17,000 seals. She was so deeply laden that all her provisions and part of her bunker coal were stored on deck so that every available space below could be filled with her catch.

SUNDAY HALTS SUICIDE MANIA

Philadelphia, April 6.—Provost Edgar Smith's purpose in having Billy Sunday address the students at the University of Pennsylvania was to put an end to the possibility of more suicides at that institution. Since the first of the student suicides Provost Smith had been trying to decide what could be done to check the suicidal impulse that seemed to spread among the young men at the university. He decided that if the minds of youths, depressed because of scholastic failure or for other reasons, could be diverted to things spiritual, their melancholy would have an outlet in religious expression rather than in self-destruction. Accordingly, he asked Billy Sunday to come to the university and speak to the students. The results of Sunday's shirt-sleeved evangelism were all that Provost Smith had hoped for. There has been a religious awakening at the institution.

SURGEONS MEET

Toledo, O., April 6.—The Ohio State Clinical association, of which Dr. C. S. Hamilton of Columbus is president, is holding its second annual convention here. Eight hundred surgeons are in attendance. The feature of the sessions will be the clinics to be held in every hospital in the city.

BRYAN'S BROTHER IS A CANDIDATE

Omaha, Neb., April 6.—Charles W. Bryan, brother of William J. Bryan, is preparing to announce himself a gubernatorial candidate in Nebraska, according to good authorities. Mr. Bryan has demanded that a progressive Democrat be named as the candidate. He has stated that so anxious is he to see a progressive candidate named that in order to insure the selection of a Democrat of that class he himself will enter the ring.

SOUGHT DEATH

Columbus, O., April 6.—The body of Guy W. Wood, 23, of this city, was found rigid in death on a chair in a little room on the third floor of the Southern hotel. A bullet had been fired from a 32-caliber revolver through the right temple. Young Wood was the son of E. P. Wood, secretary of the Ohio State Savings association. Young Wood was a victim of mental suggestion. He believed he was subject to tuberculosis.

WET VICTORY IN BALANCE

Youngstown, O., April 6.—Serious doubts as to the legality of the wet victory in Mahoning county March 1 were expressed in the report of the grand jury investigating the election. The report says that "conditions in registrations and voting in this election were worse than possibly could be imagined by the average voter."

Eighteen indictments were returned, charging perjury, illegal voting and registration and procuring illegal voting, and two for alleged violation of the corrupt practices act. Included in these are John F. Hynes, vice president of a local brewing company, and J. C. Birmingham. Hynes is charged with having given \$1 each and furnished liquor to a number of voters brought from the county infirmary at Canton, and Birmingham with having offered prizes at a colored people's ball on condition that the county went wet.

FORAKER OUT FOR SENATOR

Columbus, O., April 6.—Joseph B. Foraker will likely be a candidate for the Republican nomination for United States senator from Ohio. Campaign headquarters have been opened in the Harrison building here. They are in charge of Former State Treasurer Samuel B. Campbell, who will direct the work of circulating petitions in this county under the general supervision of E. M. West. "Petitions are being printed. As soon as we get them they will be circulated in every precinct," said Mr. Campbell.

Senator Foraker has not made formal announcement of his candidacy for senator, but considers that the opening of headquarters in the capital of the state is sufficient notice that he will enter the August primaries as an opponent of Senator Burton and any other Republican aspirant for the nomination.

Friends say the ex-senator believes he can wrest the nomination from Burton, especially if the Cleveland senator continues to support President Wilson on the Panama tolls exemption repeal bill. Senator Foraker will take the stump in opposition to the repeal and plans to make this question the issue in the pre-primary campaign.

DEED OF INDIANS

Oklahoma City, Okla., April 6.—Four persons are dead, the entire Indian country in Seminole county is in a fever of excitement and threats of lynching are being made as the result of a murderous attack by two Indian youths on the family of David Bolegs, a wealthy Indian farmer, near Seminole, Okla. The dead: David Bolegs; Mrs. David Bolegs; Jimmie Walker, 14, nephew of Bolegs; baby daughter of the Bolegs, aged 2.

CARSON SUGGESTS

London, April 6.—At the conclusion of the debate on the home rule bill Sir Edward Carson, the Unionist leader, will make another suggestion for the settlement of the question. It will be to the effect that Ulster be excluded from the provisions of the home rule measure until the federal system is applied to the whole of the United Kingdom, when the whole question will be reconsidered.

GIRLS IN ATTACK

This will be the report of the commission appointed by Carranza "first chief of the Constitutionalists" to make an investigation. MAKE DEMAND FOR NEW DEAL

Ohio Miners Will Stand By the New State Law.

Indianapolis, Ind., April 6.—Unless dissatisfaction with the action of the scale committee of the United Mine Workers in withdrawing demands for higher wages should unexpectedly develop among the ranks of the miners and the referendum vote to be taken April 14 should repudiate that action, high officials at mine workers' headquarters here believe that the other differences between the miners and operators in the bituminous field will be amicably adjusted, with the possible exception of Ohio.

The situation in that state, where the operators have closed down their mines on the ground, it is said, that the new anti-strike law does not permit them to compete with operators in other states, is admitted by the miners' leaders to be delicate and fraught with possibilities of trouble.

The leaders claim the shutdown was undertaken by the operators to force the miners to consent to suspend the operation of the law, which goes into effect May 15, until its constitutionality can be tested in the courts. They say that the operators hope to induce the miners to join with them in requesting the Ohio attorney general in the meantime to withhold prosecutions for violations of the law.

This, according to William Green, secretary-treasurer of the international organization, the miners have no intention of doing. The Ohio miners, he said, will persist in seeking a wage scale agreement on the mine-run basis, as provided in the new law, and if the operators refuse to make a satisfactory agreement and continue to maintain their lock-out, then, he declared, the miners will order a strike and "the shoe will be on the other foot."

THEN AND NOW

Forty-eight years ago today the first G. A. R. Post was established. In Decatur, Ill. Major Benjamin F. Stephenson, surgeon of the 14th Illinois Regiment, and three army friends had drawn up the constitution, two months before. The secret ritual was printed by veterans in the office of the Decatur Tribune, all of whom were members of the order. Its purpose was the "establishment and defense of the late soldiery of the United States, morally, socially and politically, with a view to inculcate a proper appreciation of their services and claims by the American people."

The first National Encampment was held in Indianapolis, 1866, General S. A. Hurlbut became the first commander-in-chief.

Today there are more than 5,000 G. A. R. Posts. The order reached a membership of 400,489 in 1890. Today it has been reduced by death to less than 170,000.

The death rate is becoming higher each year, for the veterans of the Civil War now have an average age of 69 years.

The G. A. R. has held a National Encampment every year, excepting in 1867, and has gathered in nearly every important city in the country. It was the originator of May 30 as Memorial Day, beginning in 1868. Some of the nation's most distinguished soldiers have been commanders-in-chief—Generals Burnside, Logan, Hurlbut, Hartranft, Alger, Devens, Wagner, and Robinson of the regular army.

HUERTA PUNISHES AMERICAN AGENT

Dictator Angered Because Consul Carothers Sent Word to Washington That Torreon Had Fallen, Cancels His "Exequatur."

MOVE HAS BUT LITTLE EFFECT

Federals Still Claiming Torreon Has Not Surrendered to Villa—John Lind and Family of Admiral Fletcher Embark for Home.

By Associated Press.

Washington, D. C., April 6.—The cancellation of the Huerta Government of the exequatur of American Consular Agent George C. Carothers, because he sent to Washington dispatches saying the Rebels had taken Torreon from the Huerta forces, failed to disturb State Department officials today. The Huerta Government still denies Torreon has fallen.

Mr. Carothers obtained his exequatur when he was accredited to the Madero Government and stationed at Torreon. Since the outbreak of the Carranza revolution he has had a roving commission in Northern Mexico, and his exequatur from the Mexico City Government has been of little value to him, all his dealings being with the Constitutionalists.

It is the intention of the American Government to keep Carothers with General Villa and the Constitutional leader to make prompt representation for the safety of Americans and other foreigners and to look after their interests generally.

Vera Cruz, April 6.—John Lind, personal representative of President Wilson, with his daughter and the family of Rear Admiral Frank F. Fletcher, embarked on the Mayflower today to proceed direct to Washington. William C. Canady, American Consul here, and the consular staff went on board to bid them farewell.

Washington, D. C., April 6.—Half an hour spent in Canada will cost Samuel Lewis, a Russian, his lifetime in the United States. The Supreme Court so held today in a decision which may effect many immigration cases. Lewis came to the United States in 1904 and after living in New York went to Detroit. On November 17, 1910, he crossed to Windsor, Canada, returning with a woman whom, it was charged, he brought for immoral purposes. He contended his return to the United States was not an "entry" within the meaning of the law. The Supreme court held it was and he will be deported.

The President's Position

It is not remarkable after all that quite a number of people are still a little confused on the position of President Wilson with reference to the matter of Panama canal tolls.

It is simply this in a nut shell:

American ship owners engaged in what is called coast-wise trade are insisting that as the United States government built and owns the Panama canal that American owned vessels should be permitted to pass through the canal free of toll—without paying any money for the privilege of using the canal. To pass through the canal instead of sailing clear around Cape Horn will be an enormous saving in time and actual money to the owners of those ships.

American ship owners have practically abandoned commerce on the high seas and confine their operations to the coast-wise trade which means simply that their ships are only navigated between points on the coast line of this country.

The opening of the Panama canal extends the available coastline to these American vessel owners until it includes both the east and west coast lines.

A great many of the steamship companies engaged in the coast-wise trade, perhaps the larger part of them, are controlled by the large trans-continental railway companies and to allow the vessels of such companies to use the canal toll free would confer upon such companies and the companies controlling them an enormous benefit.

The position of President Wilson is that these American steamship companies engaged in the coast-wise trade, should pay toll for the use of the canal just the same as vessel owners of any other nation.

The President characterizes a law which would permit such companies to use the canal free of toll charges as nothing more nor less than special privilege in a new form.

The people of the United States paid millions to build the canal with the idea of benefitting commerce and of charging toll fees for the use of the canal, to reimburse the treasury of the United States for the millions of dollars of the people's money which were spent in its construction.

American shippers who use the coast-wise vessels must pay the ship owners a rate which would not be reduced by the saving in time and money which the building of the canal brought about and to allow such companies to use the canal toll free would be to add great sums to the revenues of the steamship companies at the expense of the people.

The leaders in Congress who have opposed President Wilson in his stand believe that American ship owners should not be required to pay toll for using the canal and President Wilson believes that they should.

The lower house of Congress by a majority of eighty-six, on the recommendation of President Wilson decreed that American ship owners should pay toll for the use of the canal.

The issue is simple and easily understood when the facts are known.

It is only the old, old proposition of taxing the many for the benefit of the few. The president does not believe in it and the majority of the lower house of Congress coincides with the President's views.

The battle is now passed on to the Senate.

Too Much Production of Verse With Too Little Appreciation of It

By ALFRED NOYES, English Poet

POETRY is steadily gaining in popularity. Recently I met a man who is tremendously interested in verse. He is a manufacturer, and last year when he was in England he made a SPECIAL TRIP TO THE HOME OF A GREAT CRITIC MERELY TO TALK TO HIM ABOUT POETRY. And the critic said to him, "You are the third American manufacturer who has come to talk poetry with me this week, and I don't see the connection." Well, we are very soon about to see that connection.

THE STUDENT SHOULD WRITE VERSE IF HE REALLY HAS THE POETIC INCLINATION. OTHERWISE IT IS SIMPLY A WASTE OF TIME. THERE IS TOO MUCH PRODUCTION OF VERSE AND TOO LITTLE APPRECIATION OF IT. WE ARE CONTENT TO ADMIRE SCULPTURE WITHOUT ATTEMPTING TO CREATE IT. WE SHOULD REGARD POETRY IN THE SAME WAY. WE SHOULD STOP THE GREAT WASTE OF ENERGY WHICH COMES FROM VAIN EFFORTS TO WRITE VERSE ON THE PART OF PEOPLE WHO HAVE NO REAL REASON TO MAKE THE ATTEMPT.

Poetry For Today

ONCE UPON A TIME.

The cost of living was quite low,
Once upon a time.
We used to save a little dough,
Once upon a time.
We can recall it didn't take
A dollar bill to buy a steak;
We didn't spend all we could make,
Once upon a time.

The women all dressed sensibly,
Once upon a time.
They were as modest as could be,
Once upon a time.
They didn't wear the low-necked gown
When walking on the street down town,
And skirts so tight they couldn't sit down,
Once upon a time.

The people danced with ease and grace,
Once upon a time.
They didn't scramble round the place
Once upon a time.
They danced in manner meant to please,
Not on their elbows and their knees;
They turned no handsprings in the breeze,
Once upon a time.

Hysteria was not a fad,
Once upon a time.
The folks were not sensation mad,
Once upon a time.
They were quite strong on sassy,
And it is very plain to see
Things are not what they used to be,
Once upon a time.

PLUNGES IN RIVER

Three Persons Are Killed and Many Injured in Indiana.

TRAINMEN LOSE THEIR LIVES

Locomotive, Baggage Car and Day Coach Drop Into the Water, Occupants of the Latter Escaping With Injuries—Structure Weakened Several Hours Previously by the Wreck of a Freight Train—The Victims.

Attica, Ind., April 6. — Three persons were killed and about 35 others injured, some seriously, when Wabash passenger train No. 4, known as the Continental Limited, was wrecked when the bridge over the Wabash river, just west of here, gave way. The engine, a baggage car and the day coach dropped into the water.

When the cars left the bridge the day coach, which was crowded, fell with the rear end out of the water, and though the majority of the injured were in this car, none of them was killed. The car hardly had settled in the water before the work of rescuing the passengers was commenced, and in a few minutes all had been taken out. They were taken to a hospital at Lafayette on a special train.

The dead: J. L. Miller, Peru, Ind., fireman; Timothy Howe, Peru, Ind., engineer; Harry Thomas, Huntington, Ind., baggage man.

The railroad's bridge over the Wabash river was weakened when a freight train was wrecked upon the structure, and the Continental Limited was stopped on the west side when it reached the place. A switch engine was sent across the bridge to determine whether the structure would hold the fast passenger train. Railroad officials believed it safe and the limited was ordered to proceed. The train crept out on the bridge slowly, and when about 100 feet out upon the structure the bridge gave way beneath the weight of the train. The engineer was caught under his engine and crushed to death. The fireman, who jumped, was scalded to death, and when the front end of the baggage car was toppled downward Thomas was crushed beneath an avalanche of trunks.

CHARLES SAMSON ALLOWED RELIEF

Charles Sampson, of Good Hope, the blind man who has been arrested a number of times for bootlegging, but who, it is claimed, has completely reformed, has been allowed a pension of \$150 per year, to be paid quarterly.

Sampson formerly drew a similar pension, but owing to his frequent violations of the law, the pension was cancelled until such a time when he ceased to sell liquor. No complaint has been made against the man for many months.

Here Is Good News for Stomach Victims

Some very remarkable results are being obtained by treating stomach, liver and intestinal troubles with pure vegetable oils, which exert a cleansing, soothing and purifying action upon the lower bowels, removing the obstructions of poisonous fecal matter and gases and preventing their absorption by the blood. This done, the food is allowed free passage from the stomach, fermentation ceases and stomach troubles quickly disappear.

George H. Mayr, for twenty years a leading Chicago druggist, cured himself and many of his friends of stomach, liver and intestinal troubles of years' standing by this treatment, and so successful was the remedy he devised that it has since been placed in the hands of druggists all over the country, who have sold thousands of bottles.

Though absolutely harmless, the effect of the medicine is sufficient to convince any one of its remarkable effectiveness, and within 24 hours the sufferer feels like a new person. Mayr's Wonderful Stomach Remedy is now sold here by Blackmer & Tanquary.

PERFECT ENGLISH.

Readers of newspapers are fond of finding fault with newspaper English. Scarcely a day passes without a communication calling attention to the misuse of one word, maybe three or four. The complaints are not justified. There is no established standard.

President Charles Elliot Norton, emeritus of Harvard, submitted inscriptions for the new Postoffice building at Washington. President Wilson used the blue pencil. The doctor disagreed.

Dr. Norton suggested the following to be placed over one porch or entrance:

"Carrier of news and knowledge. Instrument of trade and commerce. Promoter of mutual acquaintance among men and nations, and hence of peace and good-will."

Dr. Wilson, also President, will have it thus:

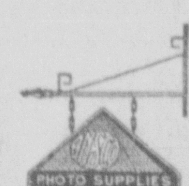

"Carrier of news and knowledge. Instrument of trade and industry. Promoter of mutual acquaintance of peace and good-will among men and nations."

Other changes were suggested by President Wilson. The lesson is plain. There is a satisfaction to be found by newspaper workers, who are under full steam all the time.

The men named are great masters of English. One had months to formulate the inscriptions to be read by posterity when the buildings in Washington will look like those on the hills about Athens. The reviewer of words had an abundance of time to look over the proof submitted. He used his blue pencil.

It may be he improved the sentences, but evidence will be offered by other professors in English to show the weakness of the changes made.

It is up to newspaper men to smile with satisfaction. Eminent men differ. Why should men who work by the minute mourn when those who work for days and even months differ over the construction of two or three inscriptions, not impressive, at that?—Commercial Tribune.

OFFICERS OF THE FOURTH MAP OUT LINE OF MARCH

Four Days' March Between This City and Chillicothe Next September Will be Accompanied by Continuous "Fighting" in Which 700 to 800 Men Will Take Part—All Supplies to be Furnished in This City.

Col. Byron L. Bargar, of the Fourth regiment, Ohio National Guards, accompanied by Capt. P. E. Money-penny, Quartermaster Sergeant Robert E. Sheldon and H. C. Groves, spent Saturday night in this city and left early Sunday morning to map out the route for the Fourth when it marches from this city to Chillicothe next September.

While in this city the party spent the night at the Cherry hotel, and discussed plans for the maneuvers in September. They made the trip Sunday by automobile, covering the ground thoroughly, and picking out camp sites along the route between this city and Chillicothe.

The Fourth regiment, consisting of companies A, of Greenfield; B and C, of Columbus; D, Marion; E, Marysville; F, Circleville; G, Chillicothe; H, Newark; I, Columbus; K, Delaware; L, Lancaster and M of this city, will assemble in this city during the forenoon of September 7th, and

will then march toward Chillicothe, probably camping near Good Hope the first night.

It will require four days to make the trip, as the men will have their heavy trappings to carry, and much of the time will be taken up in maneuvers, which will terminate in a battle royal when one battalion will encamp at Chillicothe and endeavor to repulse an attack made by the remainder of the regiment.

Several hundred rounds of blank cartridges will be carried by the men, and the skirmishes will take place all along the line of march, so that persons living along the line of march need not be surprised if a company of armed men suddenly appear near their homes and begin shooting at another party approaching from the opposite direction.

All provisions for the march will be obtained in this city, and some 700 to 800 men will be fed for some four days. 17 wagons and teams will be hired here, and about 35 saddle horses will also be provided from this city. All ice, meats, bread and everything forming the bill of fare for the men will be obtained here until they pitch camp in Chillicothe.

The march and maneuvers will occupy a period of eight days, and present plans will be carried out unless the men are—in Mexico.

GETTING READY FOR THE PROWLER

Many citizens are much alarmed over the frequent visits of the unknown prowler or prowlers who have been visiting homes in various parts of the city at late hours in the night, and ransacking the premises unless frightened away before they had time to complete their work.

So far the fellow has eluded the police, and has left little or no clue behind him.

During the past few nights several houses have been entered, and where the fellow has not been discovered, the premises have been thoroughly searched for valuables.

Quite a number of revolvers have been purchased by citizens who are expecting the nocturnal visitor to show up about their homes.

Threats to shoot the prowler on sight have been freely made, and pistols have been placed in readiness for his reception.

\$888,360 GAIN IN 1774 RETURNS

In a report made to the State Tax Commission Saturday night, District Assessor J. C. Dunn reported a gain of \$888,368 on 1774 returns made to date.

The assessors have completed three townships and the work is nearing completion in several other townships.

In all there are 4500 to 5000 returns to be made in Fayette county, and when the assessors complete their work a gain of more than \$1,000,000 over last year will probably result.

Adjoining counties are reporting large increases over the returns of last year.

WHY 7000 DRUGGISTS.

Guarantee and Recommend Vinol. If any one should know the value of a medicine it is the retail druggist who sells it.

Therefore, when over seven thousand of the best retail druggists in the country recommend Vinol, our delicious cod liver and iron tonic, without oil, as the greatest tonic re-constructer and strength creator they have ever sold, it must indicate the value of Vinol.

We could publish columns of such testimony as the following:

J. C. Brady, druggist of Fall River, Mass., says: "In cases where cod liver oil, emulsions and other tonics fail, Vinol will heal, strengthen and cure."

C. A. Potterfield, druggist, of Charleston, W. Va., says: "It is a pleasure to sell Vinol as it gives such universal satisfaction."

Hunter & McGee, druggists, of Jackson, Miss., say: "We have great confidence in the strength creating and curative value of Vinol."

We ask ever run-down, nervous, debilitated, aged or weak person or any person suffering from chronic coughs, colds or bronchitis, to try a bottle of Vinol with the understanding that their money will be returned if it does not do all we claim. FARMER INJURED BY GASOLINE ENGINE

Mr. John York, residing between this city and Good Hope, was very painfully injured early Monday morning while starting a gas engine at his home.

He was cranking the engine when it "back fired" with the result that the crank struck him a heavy blow under one eye, inflicting a gash some two inches in length, and knocking him down.

A physician was summoned and found the injury was not of a serious character, although very painful.

DANIELS' EDICT MEANS DRY NAVY

Prohibits Use of Alcohol on Warships and in the Yards.

EFFECTIVE THE FIRST OF JULY

Decree Abolishes Officers' Wine Mess and Sale of Liquor at Officers' Clubs On Shore—Wives of Officers Also Prohibited From Serving Intoxicants at Social Functions—A Sweeping Proclamation.

Washington, April 6.—A dry navy is now to take its place as the right arm of grape juice diplomacy in the scheme of the Wilson administration. Secretary of the Navy Daniels has signed an order which absolutely prohibits the use or introduction of alcoholic liquor upon any vessel of the navy or within the confines of any navy yard.

This order was issued today to the service and will become effective on July 1, 1914.

Besides abolishing what is known as the officers' wine mess on board ship and the sale of liquor at the officers' clubs on shore, Mr. Daniels' order is so sweeping as practically to enforce total abstinence upon naval officers for extended periods.

It will henceforth be a violation of the order for any officer or guest upon any naval vessel to have in his possession any alcoholic beverage.

Officers living on shore will be prohibited from having any liquor in their private homes if their duties require their residence on naval reservations. Wives of officers so situated will be prohibited from serving punches or any other form of liquor at their social functions.

Commanding officers by the terms of the order are made personally responsible for the enforcement, and it is Secretary Daniels' determination that it shall be rigidly observed.

There was much speculation here as to whether or not President Wilson had been consulted in regard to

the order. It is known that it was not discussed before the cabinet, but Secretary Daniels' friends declare that he hardly would have taken this important action without first ascertaining the president's views.

In no other navy in the world, so far as is known to naval officers here, is there any such rule or regulation as that just issued by Secretary Daniels. In most navies the custom is practically that of the United States navy at present time. There is an officers' wine mess on each vessel, out of which officers purchase liquors in such quantities and at such times as they see fit without any restrictions, except those required by performance of official duties.

While Secretary Bryan with his grape juice episode and Secretary Daniels with his present order have taken very decided stands on the temperance question, there has apparently been no intention of the president to prevent his guests at state occasions at the White House from exercising their own judgment as to whether or not they will take anything stronger than water.

GUN DISCHARGED KILLING BARON

London, April 6.—Sir John Shiffner, fifth baronet, who succeeded his father in 1906, was accidentally killed by the discharge of a gun at his home in Sussex. Sir John, who was married in 1894 to Miss Eliza Burrows, daughter of Odgen Hoffman Burrows of Newport, R. I., was cleaning a gun which he wished to have ready for his sons, who were expected home from school in a few days for the Easter vacation, when the weapon was discharged and he was instantly killed.

ARMY OF CHICAGO WOMEN TO VOTE

Chicago, April 6.—The political campaign has closed, and Chicago women are prepared, for the first time, to exercise their right of franchise at the election here tomorrow. There are 217,614 women eligible to cast their votes, and election authorities expect that at least 175,000 of these will go to the polls and aid in the selection of 36 aldermen and express themselves on the 12 questions of municipal policy submitted.

Although there are eight women candidates among the 154 seeking places in the city council, most of the women's clubs and civic organizations have centered their campaign efforts in the First ward, where Miss Marion Drake, a law stenographer and a Progressive, has set out to displace Bathhouse John Coughlin, who with Michael Kenna, has represented the ward for 20 years.

PICKETS ENJOINED

Portsmouth, O., April 6.—The temporary order asked by the Selby Shoe company to prevent striking employees and others congregating near the company's plant was granted by Judge Peoples. The court included the union pickets, holding that while their rights never have been passed upon by a court of last resort in Ohio, courts in other states have held that picket lines are never peaceable, and their use is an unlawful form of coercion.

HOPE BEING ABANDONED

No Tidings of "Southern Cross," Carrying 170 Men.

St. Johns, N. F., April 6.—Anxiety deepened for the 173 men on the sealing steamer Southern Cross, which has been missing since Tuesday's blizzard. She was not reported either by incoming vessels of the sealing fleet or by the steamer Kyle, sent out by the government to search for her. If she is not heard from by sunset tonight she will be officially posted as lost with all on board.

Disaster to her, following so closely upon the loss of 77 men of the sealer Newfoundland, would bring upon the colony the greatest tragedy in its history, depriving whole settlements of their breadwinners and rendering 1,000 women and children dependent upon charity.

As the public learned from the Newfoundland survivors the details of the two days' blizzard and the condition in which it caught the Southern Cross, the first hopes, based on the stoutness of the ship, faded. Captain Daniel Martin of the sealer Erik and Captain William Bartlett of the Terranova, which arrived with full catches, were dubious regarding the safety of the missing ship. Neither had seen her within a week.

Captain Martin said he parted company from her a week ago Thursday, when the Southern Cross turned homeward with 17,000 seals. She was so deeply laden that all her provisions and part of her bunker coal were stored on deck so that every available space below could be filled with her catch.

SUNDAY HALTS SUICIDE MANIA

Philadelphia, April 6.—Provost Edgar Smith's purpose in having Billy Sunday address the students at the University of Pennsylvania was to put an end to the possibility of more suicides at that institution. Since the first of the student suicides Provost Smith had been trying to decide what could be done to check the suicidal impulse that seemed to spread among the young men at the university. He decided that if the minds of youths, depressed because of scholastic failure or for other reasons, could be diverted to things spiritual, their melancholy would have an outlet in religious expression rather than in self-destruction. Accordingly, he asked Billy Sunday to come to the university and speak to the students. The results of Sunday's shirt-sleeved evangelism were all that Provost Smith had hoped for. There has been a religious awakening at the institution.

SURGEONS MEET

Toledo, O., April 6.—The Ohio State Medical association, of which Dr. C. S. Hamilton of Columbus is president, is holding its second annual convention here. Eight hundred surgeons are in attendance. The feature of the sessions will be the clinics to be held in every hospital in the city.

BRYAN'S BROTHER IS A CANDIDATE

Omaha, Neb., April 6.—Charles W. Bryan, brother of William J. Bryan, is preparing to announce himself a gubernatorial candidate in Nebraska, according to good authorities. Mr. Bryan has demanded that a progressive Democrat be named as the candidate. He has stated that so anxious is he to see a progressive candidate named that in order to insure the selection of a Democrat of that class he himself will enter the ring.

SOUGHT DEATH

Columbus, O., April 6.—The body of Guy W. Wood, 23, of this city, was found rigid in death on a chair in a little room on the third floor of the Southern hotel. A bullet had been fired from a 32-caliber revolver through the right temple. Young Wood was the son of E. F. Wood, secretary of the Ohio State Savings association. Young Wood was a victim of mental suggestion. He believed he was subject to tuberculosis.

WET VICTORY IN BALANCE

Youngstown, O., April 6.—Serious doubts as to the legality of the wet victory in Mahoning county March 1 were expressed in the report of the grand jury investigating the election. The report says that "conditions in registrations and voting in this election were worse than possibly could be imagined by the average voter."

Eighteen indictments were returned, charging perjury, illegal voting and registration and procuring illegal voting, and two for alleged violation of the corrupt practices act. Included in these are John F. Hynes, vice president of a local brewing company, and J. C. Birmingham. Hynes is charged with having given \$1 each and furnished liquor to a number of voters brought from the county infirmary at Canfield, and Birmingham with having offered prizes at a colored people's ball on condition that the county went wet.

FORAKER OUT FOR SENATOR

Columbus, O., April 6.—Joseph B. Foraker will likely be a candidate for the Republican nomination for United States senator from Ohio. Campaign headquarters have been opened in the Harrison building here. They are in charge of Former State Treasurer Samuel B. Campbell, who will direct the work of circulating petitions in this county under the general supervision of Eli M. West. "Petitions are being printed. As soon as we get them they will be circulated in every precinct," said Mr. Campbell.

Senator Foraker has not made formal announcement of his candidacy for senator, but considers that the opening of headquarters in the capital of the state is sufficient notice that he will enter the August primaries as an opponent of Senator Burton and any other Republican aspirant for the nomination.

Friends say the ex-senator believes he can wrest the nomination from Burton, especially if the Cleveland senator continues to support President Wilson on the Panama tolls exemption repeal bill. Senator Foraker will take the stump in opposition to the repeal and plans to make this question the issue in the pre-primary campaign.

WHAT CARRANZA PROBES FIND

British Rancher in Mexico Met His Death Thirty Miles South of Juarez at the Hands of Rodel Fierro, Late Rebel Officer—Latter Stripped of Authority and Placed in Jail at Chihuahua.

El Paso, Tex., April 6.—William S. Benton, the British subject and rancher in Mexico, was not murdered by General Villa. He was not executed by a court-martial's order and he was not killed by a knife stab. He was not even killed in Juarez.

This will be the report of the commission appointed by Carranza "first chief of the Constitutionalists," to make an investigation. The report will say that Benton was killed at Samalayuca, 32 miles south of Juarez, and Rodel Fierro, late rebel major and superintendent of railways for Pancho Villa, will be held responsible. MAKE DEMAND FOR NEW DEAL

Ohio Miners Will Stand By the New State Law.

Indianapolis, Ind., April 6.—Unless dissatisfaction with the action of the scale committee of the United Mine Workers in withdrawing demands for higher wages should unexpectedly develop among the ranks of the miners and the referendum vote to be taken April 14 should repudiate that action, high officials at mine workers' headquarters here believe that the other differences between the miners and operators in the bituminous field will be amicably adjusted, with the possible exception of Ohio.

The situation in that state, where the operators have closed down their mines on the ground, it is said, that the new anti-sweat law does not permit them to compete with operators in other states, is admitted by the miners' leaders to be delicate and fraught with possibilities of trouble.

The leaders claim the shutdown was undertaken by the operators to force the miners to consent to suspend the operation of the law, which goes into effect May 15, until its constitutionality can be tested in the courts. They say that the operators hope to induce the miners to join with them in requesting the Ohio attorney general in the meantime to withhold prosecutions for violations of the law.

This, according to William Green, secretary-treasurer of the international organization, the miners have no intention of doing. The Ohio miners, he said, will persist in seeking a wage scale agreement on the mine-run basis, as provided in the new law, and if the operators refuse to make a satisfactory agreement and continue to maintain their lock-out, then, he declared, the miners will order a strike and "the shoe will be on the other foot."

KILLED BY CAR

Cleveland, O., April 6.—A streetcar struck a bicycle on which George Stutz, 12, and John Blaze, 13, were riding. The Stutz boy rolled under the car and was instantly killed. His comrade, carried on the fender of the car for 50 feet, rolled off on the pavement with only a few slight bruises.

INVENTED AUTO

Cadiz, O., April 6.—Oliver H. Burdette, 84, died at his home at New Athens. Burdette built the first steam road wagon ever used in this country, about 45 years ago, and made the first sprocket chain ever in use, so he has been considered the originator of the automobile. He patented only a few of his inventions.

BODY IN WELL

Columbus, O., April 6.—Searchers who had been looking for Mrs. Susan Rice, 58, found her body floating in an abandoned well by a deserted farmhouse in Souder road, Jefferson township, this county. The woman had pushed aside boards covering the well and jumped in. She was the wife of a farmer and had been ailing.

STACEY B. RANKIN FOR BANKING HEAD

PATIENT SUICIDES

Cleveland, O., April 6.—Edith Eddy, 14, committed suicide, shooting herself through the heart. She is said to have been teased about a youthful sweetheart who had neglected her.

THEN AND NOW

Forty-eight years ago today the first G. A. R. Post was established. In Decatur, Ill., Major Benjamin F. Stephenson, surgeon of the 14th Illinois Regiment, and three army friends had drawn up the constitution two months before. The secret ritual was printed by veterans in the office of the Decatur Tribune, all of whom were members of the order. Its purpose was the "establishment and defense of the late soldiery of the United States, morally, socially and politically, with a view to inculcate a proper appreciation of their services and claims by the American people."

The first National Encampment was held in Indianapolis, 1866. General S. A. Hurlbut became the first commander-in-chief.

NOW.

Today there are more than 5,000 G. A. R. Posts. The order reached a membership of 400,489 in 1890. Today it has been reduced by death to less than 170,000.

The death rate is becoming higher each year, for the veterans of the Civil War now have an average age of 69 years.

The G. A. R. has held a National Encampment every year, excepting in 1867, and has gathered in nearly every important city in the country. It was the originator of May 30 as Memorial Day, beginning in 1868. Some of the nation's most distinguished soldiers have been commanders-in-chief—Generals Burnside, Logan, Hurlbut, Hartranft, Alger, Devens, Wagner, and Robinson of the regular army.

KEEPER NEARLY KILLED BY BEAR

Philadelphia, April 6.—A savage bear, "Doc," rushed upon Thomas Preater, a keeper in the zoo in Fairmont park, and scratched his arm severely, bit his right leg and would have killed him had not Julius Dages, another keeper, came to the rescue. Preater fought desperately with the infuriated animal, crying at the top of his voice for help. When Dages arrived the keeper's strength was almost exhausted. Preater was dragged from the cage and taken to a hospital, where he will have to remain for at least a week.

HIDY EMPLOYED IN LOCAL SUIT

At the opening of the next term of Common Pleas court on Tuesday, April 14, at which time the re-trial of the Allen-Smith \$20,000 damage case will be taken up, Judge Joseph H. Hidy will again be heard in the local courts. Mr. Allen has employed Judge Hidy to assist in the trial of the now famous case.

Judge Hidy since leaving the Fayette county Common Pleas bench several years ago, has resided in Cleveland, where he has been actively engaged in the practice of his profession, having been connected with leading legal firms of Cleveland and

winning much renown as a trial lawyer. The Allen-Smith case in which Judge Hidy has become interested, is the out-growth of injuries sustained by Frank M. Allen when he was thrown from a buggy near Staunton a few years ago. His horse became frightened when the Smith auto whizzed very closely by the horse, and the animal jumped into the ditch and overturned the rig. The first trial of the case resulted in a disagreement. Mr. Smith resides near Leesburg.

SWEEPSTAKES EARS ARE ON EXHIBITION

The ten magnificent ears of corn which won sweepstakes at the National Corn show this year, are now on exhibition at the Washington Savings bank, where they are attracting much attention.

The ears, which are of wonderful uniformity, were grown by H. W. Bussert on the Frank Kennedy farm in Paint township, and were superior to all shown in their class at the national show.

They are the kind of ears that have been drawing the cups, ribbons, prize money, and, above all, nationwide attention to Fayette county as a fine corn producing community.
